Developed personal website for the assignment.

Hi,

I have developed personal website for the assignment, for which I would want to receive feedback. All Html and CSS are my own codes, but there are some JavaScript and JQuery that I used from other resources on the Internet. I didn't know how to correctly cite these pieces of code. Can I submit the project since this part focuses only on Html and CSS and not JavaScript?
Could you please have a look at the project and tell me if it is suitable to be submitted for this assignment?
Thank you.

☑ Set as Accepted Answer

- Hello Javad,
- Your project is suitable for submission.
- Try to make a separate folder for all of your `javascript` code instead of using this in your `Html` files.
- Drop a text in the same field if you need anything.
- Stay Safe and Happy Learning :)
